About this Plan

This thoughtfully designed single-story home offers over 1,000 square feet of living space paired with a large 3 car garage.

Step inside to an inviting open layout that seamlessly connects the living room, dining area, and kitchen—ideal for both everyday living and entertaining. A dedicated pantry and laundry room add convenience, while the well-planned flow ensures ease of movement throughout.

The primary suite features a walk-in closet and private bath, creating a comfortable retreat. Two additional bedrooms and a shared bathroom provide ample space for family or guests.

With its balanced proportions, abundant natural light, and modern functionality, this home combines efficiency with warmth—designed for relaxed living and effortless style.
